About

I'm currently learning front-end development via free online courses. I have projects I've been working on that are publicly available on my Github account. I also explore Linux desktop environments during my spare time. I also have a strong background in IT Network Management and have since participated in network related projects for my previous employers. My objective is to secure a challenging position within an organisation to aid improve productivity and reputation thereby becoming your valuable asset.

Skills

- JavaScript Beginner
- Zsh (Z shell) Beginner
- CSS 3 Beginner
- HTML5 Beginner
- VS Code
- Python
- GNU Bash
- Vim
- React
- Kali Linux
- Kubuntu
- Windows 10
